Underwriting Decision Tree

Common Terms

Proposed Insured Signature - Only the proposed insured may sign on the Proposed Insured signature line. No one else may sign the proposed insured's name. The proposed insured must be able to sign their own name. A "mark" or "X" is not acceptable. Power of Attorney signatures are not acceptable.

Policy Owner Signature - Only the owner may sign on the Owner signature line. The policy owner signature is required if the policy owner is different than the proposed insured.

Payor Information - We need the payors full address and signature. If the insured has a representative payee, paperwork is required.

Replacements - State regulations require that applicable replacement forms be completed at the time of application and be submitted with the application.

Application Date - Applications must be dated the day the application is completed and signed by the proposed insured.

Policy Effective Date- The policy becomes effective on the issue date as long as underwriting approves the application, collects first premium and there are no changes in the proposed insured's insurability between the applications signed date and the issue date. A future effective date of no more than 30 days in the future from the application may be requested.

Forms of Payment - EFT with completed information, personal check, credit or debit card (Visa, MC or AMEX), or money order. Cash is not acceptable and a check from the agent is not acceptable unless the agent check is for their own personal policy.

Bank Draft Date - A premium will be drafted on the same date each month. A draft date of the 1st through the 28th of each month is an acceptable draft date. If a specific draft date is not specified, SNL will draft immediately upon the approval of the application and the application date will be the future draft date each month. Initial draft date must be within 30 days of the application date.

Initial Premium - The initial draft may be drafted on any business day of the month as long as completed EFT information is filled out on the application. SNL requires a premium with applications OR completed EFT/CC information to draft the first premium within 30 days (We will run the bank account information through our Toolbox, if this comes back with "deny" or "insufficient information" we will require a voided check or a bank statement).

1035 Exchanges - SNL cannot accommodate 1035 exchanges for life insurance contracts.

Agent Splits - Split commissions between agents are acceptable. Both agents need to sign the application and write the percentage of the commission payable to each agent's signature.

Social Security Numbers – The proposed insured's Social Security Number is required for all applications.

Submitting New Business

SNL Provides Three Methods to Submit Applications:

1. Website Upload (Preferred)

This is the preferred method. You need to scan and save the application with any applicable documents to your computer. Next, log into our agent portal via **www.SNLFinalExpense.com** then the Agent Login button. Then click **New Business Upload** and select **Secure Upload**.

You should click on **First Time Contract Submission** then click **Browse** and go to the file you saved on your computer. Double click your file name. You may duplicate the file name as many times as needed to upload all documents (total of 15 megabyte limit on total submission). Lastly, click **Submit to Underwriters** and you will receive an email saying it was received successfully. The acceptable file types are png, jpg / jpeg, bmp, tif / tiff, pdf. (If you have problems logging into our agent portal please call our Marketing Department at 1-855-SNL-4SNL (Then press 4).

2. Mail

You may mail applications via USPS to:
Security National Life
New Business
PO Box 57220
Salt Lake City, UT 84157

3. Overnight

Via US Mail, UPS or FedEx
Security National Life
5300 South 360 West
Salt Lake City, UT 84123

****Please note – we do not allow applications to be submitted via fax or email as this is not a secure way to transmit personal and confidential information.****

New Business must be received by 10:30 a.m. MST. Every piece of business that is received by 10:30 a.m. MST is guaranteed to be ENTERED and counted as received, but not necessarily issued.

- If you submit via UPS or FedEx, it is guaranteed to be ENTERED, but not necessarily issued.
- If it is submitted via express mail or priority mail through USPS, it is not guaranteed to be entered that day. It will depend on when it gets to the department.
- If you submit the application through secure online upload it is not necessary to mail in the originals. You may keep these for your records.

Corrections for policies that are pending due to problems must be received by 2:00 p.m. MST (12:00 p.m. (noon) MST on the last working day of the month) in order to issue the pending policy.

The preferred way to send corrections is through our secure online upload – this will help the business will be issued (IF the problem has been corrected).

Underwriting Guidelines

General Underwriting Guidelines

1. All application sections must be completed correctly, signed and dated by the agent (agent number must be written on application), proposed insured and the owner (if different than the applicant).
2. If the insured is a minor, we must have the parent or legal guardian sign for them. If there is a guardian, we will need a copy of the guardianship papers.
3. If the beneficiary is the estate or trustee, they must have an estate set up and we need copies of the estate papers or trust papers.
4. All applications are void 30 days after the written (signed) date; applications must be received by the home office before the 30-day deadline.
5. CWA (cash with application) must be submitted by the proposed insured/owner. No agent checks are allowed. We do allow COD business including credit/debit cards. When a credit/debit card is used for CWA the direct bill premium rate applies.
6. If the CWA is returned to us as non-sufficient funds (NSF) we will contact the agent to verify account information or collect different information to allow one additional attempt in collecting the CWA. The agent has 48 hours to provide us this information. We will cancel the policy as "rescinded" if we don't hear from the agent.
7. If a policy is received by 10:30 a.m. MST it is guaranteed to be entered, but not guaranteed to be issued.

Medical Underwriting Guidelines

1. All Health questions on the application must be asked of the proposed insured and the complete information written on the application. Depending on how the health questions are answered will determine which coverage will be issued. By following the application guidelines in the health section of the application, the agent will easily be able to determine which plan to offer the proposed insured.
2. Medication for medical conditions means the applicant is being treated for that medical condition, which means that health questions for that condition must be marked "yes". Refer to the Medical Guidelines section for additional information, or call the Underwriting Department with your questions.
3. All insured applications require Rx search as part of the underwriting process. We need the applicants SSN and signature on the application to complete this process. If this information is not on the application, the application will be held for 30 days (from the application date) to allow the agent to get the necessary information.
4. Applications that require an Rx search will be issued/amended/declined upon underwriting review. If amended/declined the agent and regional manager will be notified via email.
5. Applicant's that are incarcerated in any type of facility cannot be issued on any type of plan. Do not submit an application.
6. Any phone verification calls or underwriting clarification calls will be made by the underwriting department directly to the applicant.

More Helpful Underwriting Guidelines

These are helpful GUIDELINES for your assessment of the medical history on an application. Keep in mind that you actually visit with the insured, see them face to face and have an advantage over the Home Office. We rely on you for “field underwriting”.

Please remember that not all medical conditions are listed. If the condition was serious enough to seek medical attention and medications were given in aid of this condition, they may not qualify for the fully insured plan. Exceptions are minor acute conditions such as colds, flu, allergies, and other minor conditions from which the applicant has fully recovered. As individual situations vary, so do underwriting decisions. The primary insured must sign his/her own application. The only exception is for minor children. Insurance on those who cannot read or write and their signature is an “X”, must be witnessed by another person of legal age other than the agent. Make certain that all of the medical questions are asked and fully answered, as the application becomes a part of any policy issued.

If the primary insured has seen a doctor and they are currently running tests or are awaiting further news from the doctor this policy is to not be written. We need to postpone until either the doctor has given a clean bill of health or a diagnosis has been made.

Underwriting Blood Thinner Maintenance Therapy (Simple Security Plan)

Improved Underwriting:

We are now accepting certain blood thinning medications available for immediate coverage on the preferred class with the following conditions:

Ailments: Atrial Fibrillation, Pulmonary Embolism, Stroke (including TIA's), and Stents

Medications: Aggrenox, Aspirin, Clopidogrel, Dipyridamole, Effient, Persantine, Plavix, Prasugrel, Ticlid, Ticlopidine

Underwriting:

- If qualifying event was more than two years ago and they are on the maintenance medication with no other ailments we will issue a first day coverage plan at the preferred rate.
- If qualifying event was more than two years ago, they are on the maintenance medications, and are type one diabetic (insulin dependent) we will issue the graded plan.
- If the qualifying event is within two years we will issue based on severity and any other complications – first day coverage will not be given.

Medications Not Included:

Warfarin and Coumadin will remain graded at all times.

Please check our underwriting guide. Our Rx list has been updated.

Medical Guidelines

Use this chart to choose how medications should be graded at on your new applications.

Disclosures:

1. This list is not all inclusive and is intended as a guide only. All cases subject to review.
2. This list only identifies some uses for the medications. There may be other uses that could positively or negatively impact the final classification of the case being reviewed. We only list the uses we are concerned about. For example, we don't list elevated blood pressure because it is acceptable on the final expense application.
3. If a medication is being taken for a reason other than what is listed, please document the medication and reason taking on the Application.
